FOR IMMEDIATE RELEASE

MtronPTI Announces Down-hole Drilling and Harsh Environment Oscillators products

Orlando, Florida – March 12, 2010 –

MtronPTI, a leader in the design, manufacture and marketing of Frequency Control and Filter Products, announces the availability of clock oscillators for down-hole drilling and other harsh environment applications. These 5x7 surface mount LCC oscillators provide reliable operation with stabilities of ± 250 ppm over temperatures ranges of -40°C to $+200^{\circ}\text{C}$. The M2052 series of high reliability clock oscillators utilize unique mounting structures and are capable of surviving the severe environmental conditions faced by the oil exploration market including shock of up to 1000 g and vibration to 20 g's. In down hole applications, low power consumption is critical and these HCMOS/TTL compatible XO's will draw as little as 1.5 mA input current with a 3.3 V supply.

MtronPTI's VP of Sales & Marketing, Dick Thompson, noted that these ruggedized clock oscillators build on MtronPTI's legacy of supporting applications with severe environments: "Down-hole drilling applications place extraordinary demands on components. They must survive and operate over ultra-wide temperature ranges with shock and vibration requirements that rival the toughest mobile, shipboard, and aerospace applications. We've built upon our experience supporting hi-reliability applications for commercial, military, and aerospace markets, and have qualified the M2052 series product line that will meet the needs of this demanding market space."

For more information, please contact MtronPTI marketing at 605-665-9321 or email marketing@mtronpti.com.

About MtronPTI

MtronPTI is a leading designer and manufacturer of advanced, highly-engineered frequency control products and electronic filter products. The company specializes in developing custom products for advanced frequency control applications. It is based in Orlando, Florida, with design, sales and manufacturing locations in North America, Asia and Europe. MtronPTI is a subsidiary of The LGL Group. LGL is listed on the American Stock Exchange and traded under the symbol – LGL. View the MtronPTI website at www.mtronpti.com
